ANNUAL SCIENCE FAIR - 2026

Science Fair is organized by TCTA every year to encourage and motivate students to focus on STEM and showcase their knowledge.

It's a 1 day event with judges who have involvement in science in a day to day basis.

Parents get to see all booths after judges. Award ceremony for winners and participants follow to close the event.

* Communication is expected to be in english at this event

**Great opportunity for your kids to showcase
STEM (Science, Technology, Engineering & Mathematics) skills!**

**Come & witness the brilliance of
next generation scientists!**

ANNUAL SCIENCE FAIR - 2026

Preparation to Presentation

Curiosity is key

Start with a scientific question

- Research and collect facts
- Find ways(methods) to test and prove the results for your question
- Summarize your results and conclusion
- Make an appropriate project title

Prepare your presentation for event

- Tri-fold project board and necessary presentation materials
- Practice the verification methods that you are going to demo
- Prepare for common questions from judges from your presentation topic

ANNUAL SCIENCE FAIR - 2026

Example

Question: Why do we need vitamin C?

Creativity: Thinking of day to day application with real fruits and measuring vitamin c in them

Methodology: titration and oxidation

Poster: Header, pictures, hand written results

Execution: testing with samples and documenting facts and results accurately

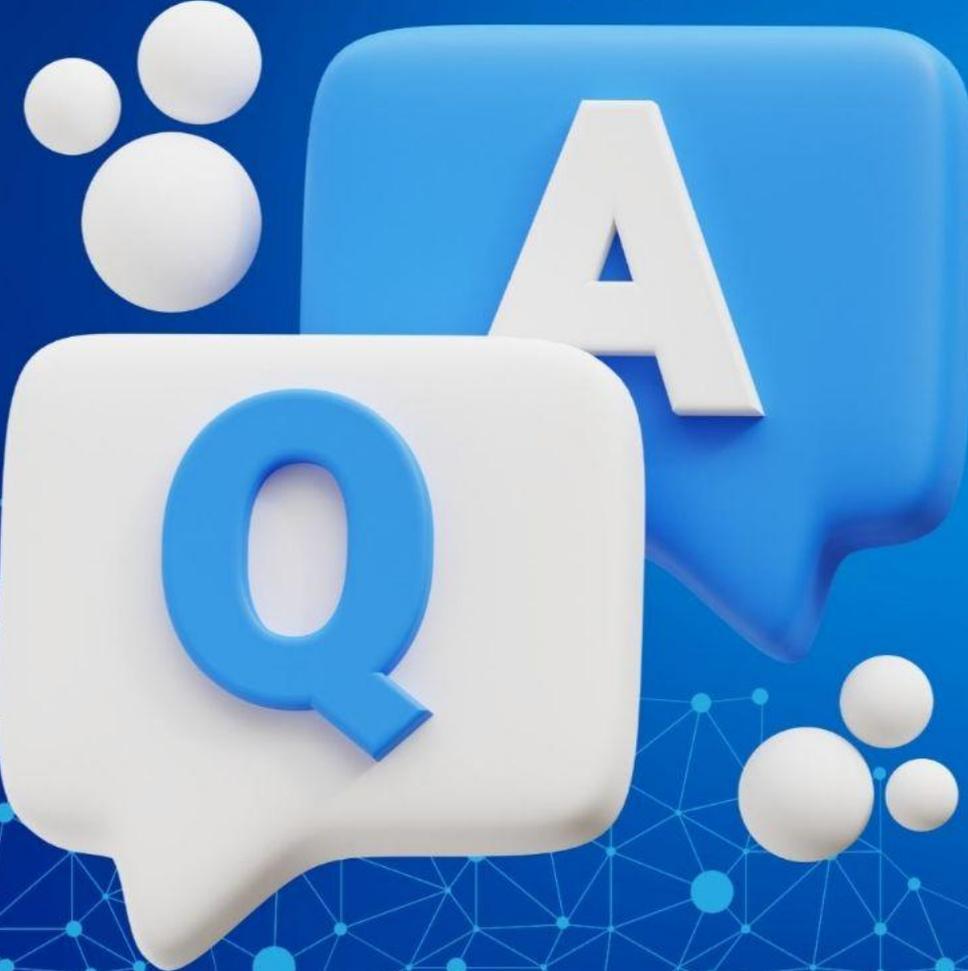

Interview: Clear answers and pointed conversation on questions from judges

This session is being recorded for our internal & external use.
